## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1, 3-9, 11-18, and 20 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1 and 9 provide for a first, second and third reticle storages storing a first, second and third reticle respectively, where the reticles are stored in their respective storages as a function of demand data pertaining to a product corresponding to a respective tool. Claims 5, 12 and 16 recite a system and method wherein the host system determines a first time limit and issues a first transfer command to move the first tool from the first tool storage to the second tool storage when the first idle time exceeds the first time limit. Claims 7, 13, and 16 recite a system and method wherein the host system determines a second time limit, calculates a second idle time, and issues a second transfer command to move the second tool from the second tool storage to the third tool storage when the second idle time exceeds the second time limit. These limitations, in combination with the other limitations in the claims, were not found in the relevant prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
